SUMMARY

- 3+ years of experience as a **Front End Developer** specializing in the **MERN stack**.
- Developed responsive applications using **React, Express.js, Node.js, and, MongoDB**.
- Proficient in **Figma** and **Adobe Creative Suite** for UI / UX Design.
- Strong **communication** and **problem-solving** skills, with an adaptable and proactive approach.

EDUCATION

Master of Software Engineering (M. Eng.)

Sept 2022 - Apr 2024

Concordia University, Montreal

Bachelor of Engineering Computer Science

Aug 2017 - July 2021

Chitkara University, Chandigarh

WORK EXPERIENCE

Web Developer

March 2023 - Present

DesignArt Canada.

Montreal, Quebec

- Developed and maintained the company’s website using **React, MSSQL, and Express.js** for improved user experiences.
- Implemented UX design principles and SEO strategies, increasing user accessibility and boosting site traffic by 30%.
- Automated** processes, significantly reducing execution time using a **Python** script.
- Large-scale design production** using automated **Adobe Photoshop** action scripts, and **Adobe Illustrator**.

Software Engineer

Sept 2020 - Aug 2022

Orange Business Services

Gurugram, India

- Developed** fully responsive web applications in **Angular, Node.js, and Express.js**, ensuring best practices with **WCAG accessibility**.
- Collaborated with back-end developers to integrate APIs and ensure smooth functionality across the website.
- Demonstrated proficiency in **web design, color, typography, layout, UI/UX design, wireframes, mockups, and prototypes**.
- Utilized version control with **Git** for managing codebases and tracking development progress.

TECHNICAL SKILLS

Front-End		React, HTML, CSS, Angular
Back-End		JavaScript, Java, Python, Node.js, Express.js, SQL
Databases		MongoDB, Firebase, MySQL, PostgreSQL,
Cloud & DevOps		AWS, Microsoft Azure, Docker
Design Tools		Figma, Adobe Creative Suite - XD, Photoshop, Illustrator

PROJECTS

Career Services - recruitment platform

Academic

- Led the development of a dynamic career services platform using **React, and Javascript**, implementing robust **CRUD** operations and using validation and authentication using **zod** and **jwt** libraries.
- Employed **agile** methodologies, facilitated iterative improvements, and collaborated closely for continuous feedback.
- Deployed on **Firebase**, which seamlessly integrates with **GitHub** to fetch and deploy the code updates automatically.

Sales Academy

Orange Business Services

- Designed and programmed a talent and development platform using **Angular, Bootstrap, and TypeScript**.
- Implemented robust **error-handling** mechanisms to manage unexpected situations, such as **API** downtime.
- Utilized **agile** methodologies and adhered to the **software development lifecycle**, facilitating **iterative development** and timely project delivery.

IMDB Data Analysis

Academic

- Implemented a **distributed system** by ingesting a big dataset using a pipeline created on **Azure Data Factory** to **Azure Cosmos DB** using **python**, transforming process and visualizing it in **Power BI**.
- Studied system’s Availability, Scalability, Virtualization (PaaS), Data Replication, Distributed Storage via Partitioning, and Fault tolerance concepts
